Ticket Sop

A. You can filter you direct enquiries from LMS from path: Lead Manager>Menu>List View>Source>Direct

Q. Buyer denying requirement

A. Ask the BuyLead details for which the buyer has denied the requirement-
    a. If the Lead is old then ask the client to purchase the latest lead.
    Reason: Buyer might have contacted the other suppliers by then and fulfilled their requirement.
    b. Initiate a ticket in the BuyLead Approval / Mapping issues bucket with all the details- lead number, buyer response
    c. As per the revert on internal ticket if team suggests reverse the lead
    d. Else as per update on internal ticket share the information with the client and educate him that we allocate a good number of weekly leads apart from direct queries & calls and if one buyer denied try connecting with others, as at IM we introduce you to the prospective buyers however final response & deal goes between buyer & supplier only and we do not have any control or surety of conversion on every lead

Q. Not getting BI notifications/ alerts/ not getting Enquiry notifications

A. Guide the client to check it from the seller panel whether alerts are on or not: (Seller >> Setting >> Notification Setting >> BuyLeads/ Tenders) The client can manage all the alerts from here.
B. Please note if still, the client is not able to receive alerts then need to follow the below points
    a. Email alerts- Emails may end up in the client's spam/junk folder or in other labels like promotion, update, social. Suggest the client check spam/junk folder and if emails found in the spam folder then mark the IndiaMART email as 'not spam'
    b. Add our email address in the contact list.
    c. Please Note:As per the IndiaMART policy, we do not send BuyLead alerts on secondary email id. If the client is complaining about the same, then kindly educate him during the first time he is raising such concern to avoid future complaints.
    d. App- check for basic troubleshooting like check & update the app, check if app is logged in via primary number & if required re-installing the app
    e. If either on email or app still client does not get alerts raise the issue along with details like from when client is facing issue and if it is only for leads or PNS & enquiries also raise the concern on CSD tester
    f. Team will run check from backend and share the resolution to be acted upon

Q. Unable to consume buyleads

A. Incase user is not able to consume leads please do below checks:
    a. Need to check if the client is logged in via registered number or not?
    b. Probe the customer to know if he has consumed a leads & details are not visible or he is not able to consume leads otherwise
    c. If he is not able to consume leads otherwise check his weekly allocated BL balance
    d. Also please check if the client is trying to consume domestic or foreign BL
    e. In case client is not having export services and he is trying to consume foreign BL he will have to either pay for individual lead or else cannot consume
    f. If client does have weekly BL balance and trying to consume domestic leads only still not able to consume BL raise the issue on CSD tester

Q. How to consume tender

A. Consuming tender is similar to BL and below is the path
    a. Login seller panel
    b. Click on buy leads
    c. In the top ribbon having relevant leads, recent leads find & click on 'Latest Tenders'
    d. Here you will find all the latest available tenders
    e. To consume a tender click on 'View tender information'
    f. You will get the details similar to buy leads and 1 BL credit will be consumed against 1 tender
B. Please note: The seller can use the GEM portal to check and proceed further for bidding after reviewing the Tenders.
    a. Need to create a Login on the GEM portal.
    b. A one-time charge of Rs . 5000 is applicable while creating the login on the Gem Portal

Q. Does IM provide good leads to high paid sellers?

A. No, there is no bifurcation of leads shown to supplier based on listing
B. A lead is introduced to all suppliers at the same time
C. However response against a lead depends of no. of factors such as early connect, competitive prices, catalog quality & finally negotiation with buyer
D. Listing impacts the no. of PNS calls & direct enquiries as buyer tend to reach out to top available suppliers

Q. Supplier not able to view buyers contact details

A. If sellers Primary or secondary contact details (Contact number/ email id) is/are not verified then the user will not receive buyers details or receive details in the masked form in both SMS and email
B. Ask the client to verify his mobile number and email ID in this case.
C. Please Note
    a. If the clients' details are already verified then after one year client has to re-verify the contact details.
    b. For example: If the details have been verified by the client on 15th January 2019 then the client has to again verify his contact details on or after 15th January 2020 to continue receiving the buyers' details.
    c. The mail which the client will be receiving having the masked buyers' details (7XXXXXXX2) in such cases we will ask the client to verify his contact details

2. Maturity related issues-

Q. I am not getting maturity from indiamart/ No business from IM

A. Ask the client if he is getting relevant leads or not, if not follow the BL irrelevancy flow
B. If leads are relevant check for client engagement such as DAU, PNS, LMS and wherever lacking guide the client that “sir/ mam as checked you are not active over BL consumption and you are missing out opportunity on approx 2-4 buyers every week”
C. Educate the client the basic steps for getting maturity from IM are as below:
    a. Actively consuming BL allocated weekly
    b. Active on enquiry & LMS replies by sending quotations to buyers
    c. Answering all the direct incoming calls being from prospective buyers
    d. Updating catalog quality score based on missing items like product description & images
D. Suggest to respond to buyer inquiries as quickly as possible. Prompt and efficient communication can build trust and increase the likelihood of successful conversions.
E. Utilize different communication channels: If a buyer is unresponsive on the Indiamart portal, consider using alternative communication mediums such as email or phone calls.
F. If checking competitors pricing is feasible we can suggest customer to adjust pricing on lower side if his prices looking comparatively high.
G. Lastly educate client that leads are dependent on market demand and it is similar to offline market where customers final purchase depends on no. of factors such as product quality, pricing and competitors and customer visiting the market does not necessarily mean he will purchase from your shop but attending the customers is our part and it may result into sale
H. Finally, it's important to note that while Indiamart can guarantee the provision of relevant buyers, the actual conversion and maturity of the relationship depend on various factors between the buyer and the supplier.

3. Deactivation Issue:

Q. I want to deactivate the services/ I want refund of my services

A. We are really sorry to hear that but can you please help us with the reason for it
B. If it is related to BL or maturity issues - follow process for these issues
C. If it is related to any other issue such as fund issue, BL or maturity issues and after solving still client is not happy and want to deactivate please follow below as per issue:
    a. IVE related deactivation/IVE ticket handling
        i. Solution 1-Explain the clients benefits of IVE packages & ask for package conversion if client agree close the ticket else provide solution 2
        ii. Solution 2- Provide complimentary service extension of IVE max 1-2 month, only ZM can approve (Here call needs to be taken by FSF/ L2 • If client agree with any of above-provided solution close the ticket else go ahead with refund/deactivation process
    b. Service-related deactivation
        i. In case of lapsable BL related concern, offer free BL to client min 25 to max 50 BL (as per permissible limit)
        ii. In case of concerns that are pending or client escalated before but remain unresolved try to resolve those concerns (for e.g.: contact details related, company name change, PNS issue, GST change etc.) and ask if it helps and client wants to review changes/ improvement for sometime
        iii. For all services, no issues (which are not as per IM policy & norms) clearly told the client that it is not possible now if the client agrees, close the ticket else proceed with deactivation process
    c. Mis commitment related deactivation
        i. Get the required details (any written communication, recording etc. which proves mis-commitment)
        ii. Apologize & try to do correct expectation setting of clients
        iii. Further arrange call with L3 for expectation setting & try to retain the client
        iv. Else L3 call will finally either retain the client or suggest refund
    d. Catalog/product related deactivation
        i. In case of any product related changes or mapping issue L1 should call the client & perform product/mapping related changes, if client satisfy close the ticket
        ii. Else, arrange meeting with FSF or call by L2 for resolution (mapping correction/changes in product, catalog etc.), if client agree close the ticket
        iii. Else, arrange call by L3 where he will try to retain the client else proceed with refund process
    e. BL Irrelevancy

i. In case of client complaining irrelevancy discuss BL with client & correct mapping, promote BLNI & in case of the wrong BuyLead do expectation setting of clients if he agrees to continue close the ticket
ii. Else, arrange L2 call or meeting with FSF do needful changes/Expectation setting client convinced close the ticket
iii. Else, on day 3 arrange call with BM where either client will be retained, or refund should be suggested

f. Client not interested in IM -Mostly client raised such concern either his/her business gets closed, BL Irrelevancy/wrong BL or client do not want to renew.
   i. Business closed:
      1. If the client raised deactivation ticket citing his/her business is wrapped-up
      2. Check if his GST get surrendered (Y/N)
      3. Sister concern company/website also closed (if any) (Y/N)
      4. Automatically follow deactivation process & proceed refund
      5. Else on day 3 arrange a call with BM where either client will be retained, or refund should be suggested
   ii. Fund Issue:
      1. If the client said that he is facing fund issue suggest EMI/ credit card option
      2. If the client still not agree to renew then do not force client for renewal

g. Deactivation Process
   i. Step 1:If the client is not ready to continue and still wants deactivation then in such cases L2/FSF intervention is needed.
   ii. Option a: L2 try to retain the client and proceed accordingly for ticket closure (if the client still want to deactivate follow option b)
   iii. Option b: Align a meeting with FOS if client convinced close the ticket (day 1)
   iv. Step 2: If the client is not ready to continue and still wants deactivation then in such cases L3 intervention is needed, L3 will talk to the client and try to retain if client convinced close the ticket else, initiate deactivation process (day2)
   v. Step 3:BM/L3 need to take ZM approval on download checklist, here ZM can hold the case max 3 days & try to retain client but after 3rd day if the client does not retain then ZM needs to provide approval on download checklist via STS update (day 3 to 5)
   vi. Step 4:On day 6, review 2 should be done on the checklist by ZM along with deactivation RCA & proceed for service download.
   vii. Step 5: Once service got downloaded then open refund initiation ticket for JV creation. Once JV has been created, inform the client regarding TAT of amount crediting (i.e. 7 to 10 working days) also send the same communication on mail & close the ticket after taking closure. (day 7)

4. Employee Issue:

Q. I am not happy with IM account manager & want to change it

A. If it is BD- ask that there is one filed executive named- & one customer care executive named- whom is he referring to
B. If it is any other vertical or client selects name of any executive from above ask what is the issue with current AM like is it:
    a. Not responding properly
    b. Not resolving issues shared
    c. Misbehaved in any way
    d. Did and miscommitment or false promise of action but not done latter
    e. Making too many calls
C. For any kind of issue- apologize for the bad experience and ensure we will definitely work towards better experience and follow below steps as per issue
    a. Account Manager Not responding: Try to figure out since how long client facing such issue & apologizes for same afterwards assure client that same thing will not repeat & try to arrange concall/Meeting with req AM then & there.
    b. Not resolving issues- apologies for the inconvenience & ask for issue and work towards resolving it first
    c. Misbehavior Related:Apologies on the behalf of employee & ensure client that action has been taken against employee & same will not happen again.
    d. Miss Commitment Related: Empathize the client & set his correct expectations.
    e. Excessive Follow-up Renewal/Upsell: Apologies for the same & assure client that now he will not receive excessive calls regarding same.
D. At last ask if the issue is resolved and post resolution if he still want to change AM - if yes ensure that we have taken this input and changes will be done

5. PNS Related Issue

Q. Getting spam calls / How to block spam calls

A. Client can easily block spam calls on PNS, while still keeping the preferred number service activated by pressing #1 while the call. The call will be blocked, however, service will continue to remain activated.

Q. How do I source the details of buyer calls which I have missed in the past?

A. Each time you miss a buyer call, you receive an alert on SMS and email with buyer name and details.
B. You can also check on Lead Manager (on your seller panel), all the missed calls received on your PNS number

C. If you have the name or number of the buyer, whose calls you have missed, you can search for the buyer using the name/number on Lead Manager and connect with buyer through it.

Q. Getting irrelevant/too much calls

A. Identify that which type of Spam client is getting
B. If marketing/promotional: Guide press #1 during the call
C. If buyers are just asking the price: Guide him to discuss more with buyers and convince ensure proper follow up, these buyers may become potential buyers in future, hence please don't ignore the calls

Q. Calls getting disconnected automatically

A. Educate the client that there could be multiple reasons for a PNS call to disconnect automatically
    a. Call answered on some other number mapped in PNS
    b. Call is being made from the number mapped in PNS
    c. Buyer disconnects the call before seller's phone starts to ring
    d. IM Buyer Number has been blocked on phone via True Caller or some other call blocking app
B. If calls are getting disconnected for a reason not mentioned above, follow steps below
    a. Check the status of last 5 call
    b. If 2 out of 5 calls are found disconnected
    c. Raise an internal ticket in PNS Bucket
    d. Educate the client that our team will get in touch with you to assist with the problem

Q. How to add/ edit or remove a number from PNS

A. Guide the DIY for which client has to navigate to seller panel>> settings>> PNS settings:
    a. Add number- Add more numbers >> Pop up will appear >> Add number >> Click on 'Save'
    b. Edit a number- When the user will move the cursor to the number it will show two options i.e. Edit and Delete
        - Click on Edit option
        - A pop up will appear
        - Edit the number and click on Save
    c. Delete a number-When the user will move the cursor to the number it will show two options i.e. Edit and Delete
        - Click on Delete option
        - A pop up will appear to confirm whether you really want to delete the number
        - Click on Ok

Q. Not getting PNS calls on a particular number

A. Check if number is mapped under PNS - If Not, then map the number under PNS
B. Check whether numbers are on the same device or separate - If numbers are on the same device then ask the client to use a separate device for the registered/mapped numbers
C. IM Buyer number is blocked on true caller - If yes, then ask client to unblock the number
D. If the client is specifically telling about the landline number - Apart from the above points also check if it is added in Fax section
E. If the issue still persists, initiate a ticket in PNS bucket.

Q. I am getting calls in late/ early hours of the day

A. You can set the time slot against each number for receiving the calls as office or non-office hours
    a. Office hours are-9:00 am to 7:00 pm (Monday to Saturday).
    b. Non-office hours- 7:00 pm to 9:00 am (Monday to Saturday) and Sunday and national bank holidays (as per RBI).
    c. You can set it via path: Settings>>PNS Call Settings>>Against a number activate/ deactivate calls for office or non-office hours as per preference

Q. Not getting calls on PNS

A. Please confirm if he is not getting calls at all or for specific time or duration
B. Do basic trouble shooting- checking PNS settings of client
C. If everything is fine please confirm if there is no truecaller installed in the client's handset as it marks calls as spam
D. Else please raise internal ticket to PNS team for checking the issue

Q. What if the client misses any call from the preferred number?

A. An SMS and email will be sent on your primary mobile number and email address registered with IndiaMART, giving you the caller details, i.e. caller's number and the time of call.

Q. Can the supplier get my preferred number (PNS) changed/edited?

A. No, PNS is a unique virtual number allocated to buyers, which is displayed on catalog. The client cannot edit this number. However, he can edit your contact numbers mapped to this PNS number using your seller panel.

Q. Not getting PNS notification

A. Check the notification setting of the supplier via path: Seller pane>>Settings>>PNS Settings>>Check the settings enabled against a no.
B. If everything is set properly still client is not getting notifications please ask client to re-install the app
C. Still issue persists escalate the same on CSD tester

Q. High no. of PNS calls gets failed/ not connected

A. Confirm if there are more than 1 sim in the handset- if yes need to use only 1 sim in one phone.
B. If there is a single sim in the phone and still calls getting dropped in no time, highlight to pns team by raising an internal ticket in PNS bucket along with all the details of the issue

6. Product Related Issues

Q. How to add/ edit/ delete products in catalog

A. Add/Edit/Delete Product: Guide the steps to make required changes from Seller Dashboard:
    - Add Product: Seller.IM >> Manage Products >> Add Product
    - Edit Product: Seller.IM >> Manage Products >> Edit
    - Delete Product: Seller.IM >> Manage Products >> Right hand side of the product click on 3 dots
    - (option) >> Deactivate >> A pop will come click on 'Yes' then 'Close' >> Inactive >> Deactivated >>
    - click on the 3 dots on the Right hand side of the product >> Delete

Please note the product image needs to be as per below guidelines:

- The minimum resolution should be 500px
- We prefer images with dimensions up to 2000px. However, if any image is larger than 2000px on either side, then the image is accepted and resized to 2000px from the backend
- The maximum allowable file size of the product image is 10 MB
- The product must cover at least 60-70% of the entire image area (use white background)
- Images should not have additional objects for a mix of different products
- Images must be free of any text i.e. watermark, logo, prices, product offers, timestamps, etc.
- Images should not contain drawings and illustrations of the product
- Images clicked from different angles should be considered as separate images
- Each image in the catalog should be unique

Q. I have added product but are not visible in the catalog

A. Please check if the product is rejected - List of all rejected products along with the reason of rejection can be checked from Seller Dashboard: (Seller.IM >> Manage products>> Inactive >> 'Rejected' tab)
B. Some of the reasons due to which your product listing may be rejected are:
    - Unclear product name
    - Irrelevant or no product description
    - Mismatch in the product name and product description
    - Test/dummy/duplicate product listing
    - Invalid watermark for contact details on the product listing
    - Plagiarism (i.e. copied from Google for any other source)
    - Product image captured/clicked from the computer screen
    - Suspect IP

Q. Rejected products has been corrected but still can't see the product under approved listings

A. After the corrections made in the product listing, it takes 24 working hours for the changes to reflect in the catalog.

Q. It is showing error in product addition

A. Please follow some troubleshooting steps:
    - Check internet connectivity
    - Login Logout
    - Check whether the limit of adding products have exceeded
    - Check product meets criterion like Image, Size, Specification, Conditions
    - Please confirm whether any extensions are running on the client's machine with the potential to block the seller if yes then ask the client to disable them.
    - Also, check the browser in which the client is trying to run the seller. Kindly request him to open the seller in Firefox or Google Chrome browser.
    - Please make sure the temp files and browser cache is cleared. Try logging into the seller and press (Ctrl+F5) to check.
    - If the issue still exists after performing these hygiene steps, arrange a conference call with the client and share the Team-viewer Details for the client's system

7. Listing Related Issues

Q. My listing is not visible on google

A. Google decides which link to be promoted more, we cannot intervene in their pro
B. motional strategy.
C. We only commit suppliers' listing on DIR.indiamart.com

Q. How to check premium category listings?

A. Follow the below steps to know how to check the clients listing
    a. Log in to 'Seller.indiamart.com'
    b. Click on 'Manage Products'
    c. Go to 'More Options'
    d. Click on 'Product Categories'
    e. Click on the category for which you wish to view the listing
    f. You will be redirected to dir.indiamart.com (Listing will be visible along with the Company name and ribbon)

Q. Visibility issue on Dir/ No visibility on DIR

A. Hard Refresh: Do Hard-Refresh (Ctrl + F5) and check whether the clients' listing is visible or not.
B. Gluser Status: Should not be A-NFL/DNF/Disabled/PNS/Email Defaulter/Tempblock (Mention Status)
C. DDUP Status: If the user is marked as Child of another Listed user, then it may not visible on DIR as we display only one company of the identified parent/child group (based on the relevancy). (Yes/ No)
D. Customer Status: Should not be PNS/Email Defaulter/Tempblocked (Mention Status)
E. Location preference:
    - DIR MCAT pages: Supplier's having Foreign Only location preference will not be visible from Indian IP
      (Path: Weberp >> Company search >> History >> Glusr >> View Complete history >> Location preference)
    - DIR PMCAT pages: Supplier's having Foreign Only location preference will be visible from Indian IP
      (To know the difference between DIR MCAT and DIR PMCAT. Click here)
    - DIR search page: Listing will be visible as per “deduced location / preferred location”.
      Path: Seller panel>> Settings >> BuyLead preference
    - Suppliers with Foreign Pref will be shown after vfcp with PNS in their registered home city but will be shown in the normal bands (LS/SS) in the case of City Listings.
    - If the city/ location is added in the 'Negative City' then the clients' listing will not be visible in that city/ Location.

(Path: Seller panel >> Settings >> Location Preferences >> You do not prefer BuyLeads from these locations)
- Product Approval status: All the products should be approved as per WebERP screen (Yes/ No)

F. Primary Product: All the Mcats should be mapped as prime in at least 1 product. (Mandatory for PMCAT). Add product if found any Mcat without prime mapping

10 . Service Related

Q. I want to have a physical meeting

A. For BD:
    a. For a physical meeting you can reach out directly to your field sales manager from>>seller panel>> Dashboard>>Scroll down to the expert assistance section>> call directly to filed representative number given
    b. In case you are unable to reach out to field executive you can call on given customer care number - 9696969696 or drop a mail on the customer care mail id given in the same section
B. For Tele-Annual & Tele-Monthly
    a. There is no field meeting option
    b. We can rather ask the client to connect on VC and resolve the issues

Q. What is ship with IM/ does IM provide any shipping facilities

A. Yes, you can now do shipping of products via Inadiamart
B. However IndiaMART itself does not offer shipping services directly. Instead, it serves as a marketplace that connects businesses with shipping companies, helping you find the right delivery partner to meet your needs. Through its Ship with IndiaMART service, IndiaMART simplifies the process of finding and booking shipping companies, making it easier for businesses to arrange deliveries.

Q. How can I avail ship with indiamart facility?

A. To book or connect with a transport service provider via “Ship with IndiaMART”, follow these steps:
    a. Step 1: Log In:If you are not logged in to Ship with IndiaMART you’ll be prompted to log in using your phone number and OTP.
    b. Step 2: Select the Type of Transport Service: Choose the appropriate shipping option based on the size and weight of your shipment:
        - Full Truck: For shipments weighing more than 2.5 tons.
        - Part Truck: For shipments weighing between 30 kg to 2500 kg.
        - Courier: For small shipments weighing less than 30 kg.
    c. Step 3: Enter Shipping Details -After selecting the service type, fill out the required shipping details:
        i. Pickup City: Where the shipment will be collected.
        ii. Drop City: The destination for the delivery.
        iii. Material Weight: Specify the weight of the goods being transported.
    d. Step 4: Find Transporters-Once you’ve filled in the shipping details, click on the “Find Transporters” button to get a list of available transport service providers.
    e. Step 5: Review Transport Options - A curated list of transport service providers will appear, along with their estimated delivery charges. Review these options and choose the provider that best fits your needs.
    f. Step 6: Chat with the Service Provider- To connect with a transport provider, click the “Chat Now” button. This will open the IndiaMART message center, where you can chat directly with the service provider. Your shipping enquiry will be displayed in the chat window. Through this conversation, you can ask for additional information such as delivery time, detailed charges, and any other shipping-related queries.
    g. Be patient while the service provider responds to your enquiry and helps finalize the delivery arrangement.

Q. What are accounting softwares provided by Iindiamart

A. Yes, if you are new paid customer of IM you can get 6 month of trial version for any of the below softwares:
    a. BUSY
    b. Livekeeping
    c. Vyapaar
B. All new paid customers where services are either of: MDC Monthly, MDC Annual, MDC MYR, TS 1yr / 2yr / 3yr

Q. How can I choose the service for accounting software

A. You will get a WhatsApp msg after the welcome call with all the 3 options. You can select any one service by clicking on the options mentioned.

Q. Can I change the plan (Busy/Livekeeping/Vyapar) later?

A. No, this is a one-time value-added service. The first selection(Busy/Livekeeping/Vyapar) will be considered final. There will be NO change afterward.

Q. After how many days will the customer receive the call for Busy/Livekeeping/Vyapar activation & demo?

A. You will get the call within 2 days of selection.

Q. I did not receive WhatsApp from Indimart for selection?

A. WhatsApp delivery can be confirmed from the WebERP history, in case the history is not found. Then AM has to send mail to sukriti.agarwal@indiamart.com, the team will reinitiate the selection option within 1 working day. Or, the customer can also directly call 9696969696 team

Q. Can a seller be eligible for a 6 Months trial again after renewal/upsell?

A. No, This is only for first-timers. For the renewal/upsell cases, this shall not be applicable,

Q. What will happen If the client has stopped NACH Payment(MDC Monthly) or if services are downloaded before 6 months?

A. Busy / Livekeeping / Vyapar service shall be stopped in case of MDC download (before 6 months) or after completion of 6 months (For Renewal after 6 months – the customer shall connect with Busy / Livekeeping / Vyapar)

Q. What happens when an MDC/TS combo client upgrades to Maximizer/Higher services before 6 months - Will Busy/livekeeping/Vyapar service be there?

A. Busy / Livekeeping / Vyapar service shall be active for 6 months in case of upsell.
B. The condition remains unchanged (IndiaMART services shall not be downloaded before 6 months). There will be no change in **Busy/livekeeping/Vyapar** subscription duration (6 months from the first activation date)

Q. What is the difference between BUSY / Livekeeping / Vyappar

A. Busy: Comprehensive accounting solution with advanced features suitable for various business sizes.
B. Live Keeping: Cloud-based software emphasizing real-time collaboration and integration for businesses of all sizes.
C. Vyapar: Simple and user-friendly accounting software tailored for small businesses.

Q. How can I get more details about the accounting software tools to know which one is better or whom can I connect in case of any issue or feedback regarding the tools

A. In case of any issue/query, suppliers can directly connect with Busy / livekeeping / Vyapar Team
    a. **Busy:** Sales & Support:+91 8282828282 / +91 11 - 40964096
    b. **Livekeeping:**support@livekeeping.com / +91 8383838383
    c. **Vyapar Team -**Email: contact@vyaparapp.in, /Call: +91 9333911911, WhatsApp: +91 6366827420

Q. How to improve Rating and Review from the Portal.

A. Here are few tips that supplier should keep a note of the following points which will help him to have a positive rating from the buyer:
    - Suppliers should reply to the buyer immediately with a competitive quotation
    - The supplier should not get angry if the buyer is not ready to deal with him
    - The supplier must show politeness while communicating with the buyer
    - The supplier should always deliver the product on or before committed time
    - Quality of product must be what is agreed
    - The supplier should always update Product Price/MOQ/Availability on catalog (Latest) for all varieties individually

Q. How can a supplier ask for rating

A. Guide the Seller to follow the below steps to send an email to the buyer for rating individually via Lead manager section from seller panel.
    a. Step1: Login to seller.indiamart.com
    b. Step2: Open Lead Manager
    c. Step3: Select the Buyer to whom he want to send rating mailer
    d. Step4: Click on 'View More Details' Link available on buyer contact header
    e. Step5: Click on "Ask for Rating" / "Request Rating" button
    f. After clicking on the "Ask for Rating" / "Request Rating" button, buyers will get an email with an option to rate the supplier.
    g. Buyer can click on the number of star (1/2/3/4/5 Star) from the email body.
    h. Buyer will be landed to My.Indiamart.com with an option to further add his rating comment and images also.

Q. Where can supplier see his rating

A. There are two ways through which the supplier can view buyers' rating/ Feedback:
    a. Way 1:Login to seller panel
        i. On the left-hand side below the company name rating is visible. Click on (n*/5) to view the feedback.
        ii. Note* - 'n' is the overall rating provided by the buyer.
    b. Way 2: Login to seller panel
        i. Company Profile >> More options >> Your Rating and Review

Q. How to edit or delete a rating

A. There is no provision or either editing or deleting any rating to the supplier
B. However if the buyer wants he can edit his rating as per below steps
    a. Step1: Ask the buyer to login to My.Indiamart.com
    b. Step2: Click on Messages
    c. Step3: Select the respective supplier from the contact list for whom the buyer wants to change the rating
    d. The buyer will be promoted with a rating edit box in the chat window against the submitted rating message.
C. Note- For any rating related queries, an internal ticket is to be initiated by respective AM in the Rating and review bucket, the team will update on the ticket only.

Q. Parameters for rating the supplier (by buyer)

A. There is no specific parameter on which the buyer provides the rating.
B. The rating provided by the buyer is based on the overall experience he/ she had with the supplier.
C. Though we provide an option of responsiveness, quality, delivery and behaviour to select that is optional.
D. Currently, buyers' rating does not impact the suppliers listing.

Q. What are the various services that Indiamart Provides.

A. Indiamart offers below services:
    a. Mini dynamic catalog (MDC)
    b. Trustseal
    c. Maximiser
    d. IM Insta
    e. IM Star
    f. IM Leader
    g. IM industry leader
    h. Indiamart Verified Exporter
B. All these services offer different benefits and offerings and can be availed for different durations
C. For more detailed information please visit the link- https://corporate.indiamart.com/indiamart-paid-service-mdc/

Q. How to register for paid services of indiamart

A. Purchase via seller portal: The paid services can be purchased via Seller Panel if you already have a free seller account with IndiaMART. Follow these steps in order to opt for paid services:
    1. Sign-in to your Seller Dashboard via your mobile number and OTP. If you don't have an account, you can sign-up as a free seller on IndiaMART.
    2. Navigate to 'Paid Services', select your Plan and click on 'Buy Now' option to purchase any package.
    3. Make the payment via various Payment options available.
    4. Our executives would contact you soon for the briefing of the services and platform. OR

B. Clicking 'Boost Your Business with Us':
1. By clicking on the above 'Boost your Business with us' button, your interest would be redirected towards our executive team. IndiaMART sales team would contact you to discuss the services in detail. OR

C. Connecting to Customer Care Support
1. You can directly connect with the customer care team through its mobile helpline at +91-9696969696 and email at customercare@indiamart.com. These services ensure prompt assistance for your queries regarding paid services, and will take care of your account management.

Q. Is Trust Seal better than MDC?

A. Yes, Trustsel as the name says comes with a badging of Trustseal signifying the trusted supplier along along that includes
    a. TrustSEAL LOGO in paid Catalog
    b. TrustSEAL Stamp in IndiaMART Listing
    c. TrustSEAL Certificate
    d. Trust Report
    e. Opportunity to get more buyers (20 BL/week + 2 Daily Bonus)

B. Supplier Benefits:
    - TrustSEAL Badge on IndiaMART Listing: Once your business is TrustSEAL verified, a TrustSEAL badge will appear on your IndiaMART listing, signaling to buyers that you are a trusted and reliable supplier.
    - TrustSEAL Certificate and Report: You will also receive a TrustSEAL certificate and verification report, which serve as official proof of your credibility and reliability.
    - Enhanced Visibility: The TrustSEAL logo allows your business to stand out, improving your listing position and generating more inquiries compared to non-verified suppliers.
    - Better Listing than MDC Service: Your company would be listed above all the basic MDC customers and hence attracting more customers.

C. Buyer Benefits:
    - Buyers get connected with suppliers who have been certified as Trusted Member of IndiaMART
    - Take informed decisions about dealing with the Right Supplier
    - Easily distinguish between a verified and a non-verified company
    - Buyers can now deal more confidently with sellers

Q. What is Im Insta

A. In today's fast-paced world, WhatsApp isn't just for personal chats; it's a vital business tool. Recognizing this, we've seamlessly integrated WhatsApp with the IndiaMART Lead Manager, bringing you a suite of powerful features:
    a. WhatsApp Business API Integration: Keep your existing PNS number and integrate it effortlessly with our Lead Manager.
    b. Direct Buyer Enquiries via WhatsApp: Make it easy for buyers to reach out to you directly through WhatsApp.
    c. Unlimited Conversations, Unlimited Opportunities: Engage with buyers by sending unlimited outgoing messages during the first 24 hours of a Buyer-initiated WhatsApp conversation, and enjoy one templated message per buyer per day for 7 days * (*subject to policy changes).

    d. Showcase Your Brand on WhatsApp: Present a complete company profile, including your logo and company details, on WhatsApp.

    d. Interactive Q&A and quizzes
    e. Certificates of completion for engaged participants

11 . Contact Details Related-

Q. Want to change Primary mobile number

A. Below scenarios can be raised by the client when he/she want to change the primary mobile number
    - If the client has access to the Primary Mobile Number
    - If the client doesn't have access to the registered/ primary mobile number
        - Primary Email not accessible
        - Primary Email is Accessible

B. If the client has access to the Primary Mobile Number:
    a. Steps to change it from Seller Panel: (Seller.IM >> Company Profile >> Contact Details)
    b. Click on the pen icon next to Primary Mobile Number.
    c. Enter the 4 digits OTP received on Primary Mobile Number to allow modification.
    d. Enter the new mobile number and verify the same by entering the OTP received.
    e. Upon successful verification, the primary mobile number will be updated.
    f. In case the mobile number updated is already registered in another account with IndiaMART, the client will receive the message with account details.
    g. Choose ‘Yes, Continue’, it will disable the other account linked with the same mobile number and update the mobile number in this account.

C. If the client doesn't have access to the registered mobile number:
Check whether the client has access to the primary email address.
    a. Primary Email not accessible:
        - We will have to raise an internal ticket in "Email/ Mobile number change" bucket simultaneously educating the client that we will get in touch with you within 24-48 working hours.

    b.Primary Email is accessible:
        - Client needs to enter his primary number and then click for OTP on email option
        - Enter the OTP to log in the account
        - Now the steps to change it from seller panel are (Seller.IM >> Company Profile >> Contact Details)
        - Click pen icon next to Primary Mobile number
        - On the screen where you're prompted to enter 4 Digit OTP click on ‘Send OTP on Email’
        - Enter the OTP received on email to allow modifications.
        - Add a new mobile number and click on ‘Save’. If you wish to add the secondary number as primary then first remove the secondary number and then add the same in the primary.
        - Enter the OTP received on a new number to verify your mobile.
        - Upon successful verification, your primary mobile number will be updated.
        - In case the mobile number updated is already registered in another account with IndiaMART, the client will receive the message with account details.

- Choose ‘yes, continue’, it will disable the other account linked with the same mobile number and update the mobile number in this account.

Q. Want to change primary email id

A. Steps to change it from Seller Panel: (Seller >> Company Profile >> Contact Details)
   - Click on the pen icon to update Primary Email ID.
   - Enter the OTP received on Primary Mobile Number.
   - Enter the new Email ID which you want to add.
   - Enter the OTP received on the new Email ID.
   - After successful verification, the primary email id will be updated.

B. Error message showing while changing email id:While updating the Primary Email ID, if the client gets the error message ‘Email already in use’ then
   - Need to raise an internal ticket under Email/ Mobile number change. The team will remove the email id from the FCP.
   - Later client can try to add the email id.
   - If the you wants to add the alternative/ secondary email id as primary then you will have to first remove the secondary email id then make the changes in the primary email id.(As per our system both primary and secondary email id cannot be same)

Q. Add/ update/ change google map location or pointer

A. If the client complains that his location pointer on Google Maps through Indiamart catalog is wrong - Ask the client to share the location coordinates to be updated on Google Maps.
   a. After getting the coordinates open an internal ticket in location correction bucket along with shared coordinates
B. The client complains that his location pointer on Google Maps is correct, but the address shown is wrong.- In this case, the client has to be told that we are just updating the customer location link as provided to us on the IndiaMART Catalog, which is further diverted/forwarded to a Google MAP. If the address on Google Maps is different from the customer registered address, then we cannot control/change this. This is because maps.Google.com is completely owned by Google and addresses for the specific Location Pointer on Google Maps are managed and geocoded by google.

Q. How can I edit/ update my address

A. This section is not editable and is in sync with details updated in GST certificate
B. If there exists any additional address in GST - same can be updated
C. For making any changes get the details updated in GST certificate and share the updated certificate with us based on that- internal ticket will be raised on GST bucket & the team will validate and make the changes

D. If the changes are declined share the reason for same

Q. How can I change the contact person name in my account

A. Client can do it from his end via path: Seller Panel >> Company profile >> Primary detail>> click on pen icon to edit it

Q. How can I update my bank details in my account

A. Client can do it from his end via path: Seller Panel >> Company profile >> Primary detail>> click on pen icon to edit it in the Bank Details section

Q. Wrong or other person contact details updated in the account/ not known to the supplier

A. We need to raise a ticket in 'Hacked Account' bucket for checking any suspicious or hacking scenario

Q. How can I edit various sections/ website pages of my catalog- Home page, About Us, Awards & Memberships, Quality & Compliance, Infrastructure Facilities, Testimonials, News, Jobs & Custom Profile

A. You can edit any of the website pages of your catalog through your seller panel by navigating to : Seller Panel>> Profile>>Click on the section you want to edit>> update content>> click on save

Q. Want to add alternate email

A. Seller Panel:
    a. Guide the client to follow the below path to add or edit alternative/ secondary email id from Seller Panel: Seller.IM >> Company Profile >> Contact Details
    b. Guide the client to click on the pen icon next to the alternate email address.
    c. Enter the 4 Digit OTP received on primary mobile number.
    d. Enter alternate email id which needs to be added.
    e. Enter the OTP received on alternate email id (Newly Added).
    f. Upon successful verification, alternate email id will be updated.
B. Mobile App (IOS and Android)
    a. Ask the client to open the mobile app and follow the below steps:
    b. Click on three horizontal lines on the top left
    c. Click on the pencil Icon, It will direct you to the edit profile page
    d. Scroll down and add the details in Other Information
    e. Add/ Edit the Alternate Email Id
    f. Enter the OTP received on Registered Number
    g. Verify the OTP received on the alternate email id
    h. Update and save

Q. How to add additional address in catalog

A. The client can add the details through the following path:

- Seller panel >> Company Profile >> Contact Details >> Scroll down the page you will view Additional Contact Details >> Click on Add New Contact
- To edit the details click on the pencil icon
- Please Note-There is no maximum limitation for adding additional contact/ branch details

Q. How to claim mobile number

A. If a mobile no. is showing already in use due to which client is unable to update it and need to claim it raise an internal ticket in email/ mobile number change bucket with all the details such as paid GL ID in which no. needs to be updated and the mobile number
B. Team will make changes or ask for details / share updates which can be tracked on the internal ticket raised

Q. OTP not received

A. Client not getting OTP mails
    a. Check the other mail folders like spam/social/promotion/marketing
    b. Search using IM mail id (useradmin@indiamart.com)
    c. Check whether the email id is valid or not
    d. Ask the client to check with his domain/mail service provider
    e. Whether the client has marked the mail spam, if yes then share the date
    f. Check whether the email id is valid or not
    g. Note: If an issue is found in any of the above points, guide the client about the same and the issue will be resolved.
B. Not getting OTP SMS
    a. Ask the client to restart the phone and check
    b. Inform the client to make space in his inbox
    c. Check the client's network connection and ask him to try by changing network connection
    d. Ask the client to check his network connection
    e. Note: If an issue is found in any of the above points, guide the client about the same and the issue will be resolved.
C. Foreign buyer not getting OTP
    a. Ask the client to check his all mail folders
    b. Search with IM mail id
    c. Check whether the email id is working fine
    d. Note: If an issue is found in any of the above points, guide the client about the same and the issue will be resolved.

D. If still the issue persists then initiate mail on CSD-Tester

Q. How to Corporate email id / Corporate email is not working

A. Identify the changes required in E-Mail ID: Raise an internal ticket in "POP Account" bucket.
B. Educate the client that the changes will be made within 24-48 working hours.

12 . Billing & Payment Related-

Q. What is NACH- Monthly Mode

A. Automatic payment enrollment from the suppliers' bank account
B. The auto-selected NACH deduction date will be the nearest date from hosting date
C. The NACH date will be auto-selected out of 5th, 10th,15th, 20th, 25th and 30th of a month

Q. How to change bank account details for NACH

A. Customer requests NACH bank account change request (1st NACH hit pending/ 0-30 day customer)
    a. System Check: Check CL or Onboarding icon to confirm if this is first NACH hit
    b. Resolution: Inform the customer that first NACH should be cleared from the registered bank account only, hence changes cannot be done before first NACH hit (OCR)
B. Customer requests NACH bank account change request (Post 1st NACH hit)
    a. Resolution- Confirm reason of NACH bank change requests and issue a ticket with complete details.
C. Identify the reason for account change.
D. Check if the new bank account is mentioned in "accepted bank account list".
E. The sales team needs to generate an account modification link via WebERP. The user will get an option to change the account details
F. When the new NACH is successfully registered, the existing proforma will be mapped to the new bank account. No new proforma will be generated.
G. NACH gets activated in real-time with updated account details.
H. Steps to be followed:
    a. Follow the below path to generate link -WebERP >> Open desired company >> IM Promotion >> Home >> Send ENACH account change
    b. Mail will be sent to the client
    c. After clicking on 'Change your bank account' the user will land on Pay.IM NACH registration flow
    d. Client needs to add details and click on Submit

e. On successful registration, a message will appear to the client

Q. What is the accepted bank account link for NACH

A. It can be downloaded from the link- https://d2x3xhvgiqkx42.cloudfront.net/f35fb1f2-1e0e-4d44-aec4-31ca694327ac/e0a5b60a-d1eb-454b-a575-40d7811b5c76/2019/12/02/9f35e319-323d-455a-bf5a-b47ec9c4e8e4/updated_live_bank_list_(18).xlsx?response-content-disposition=attachment;filename*=UTF-8%27%27updated_live_bank_list_%2818%29.xlsx

Q. How can client check his NACH deduction date

A. There are 2 paths as below:
   a. If you have access to the HR/ Accounts Tab then follow the below path -Login Weberp>> HR/ Accounts >> Monthly Master >> Check debit date
   b. If you do not have access to the HR/ Accounts Tab then follow the below path -Login Weberp>> Select Company >> CL >> Check the date on which the NACH is cleared. The date which will be repetitive in nature is your NACH deduction date.

Q. How to change nach debit date

A. Identify the reason for NACH date change
B. Check the NACH Hit Date on the account
   a. If the customer is calling 5 days before NACH hit date:Educate the customer that NACH date can be extended for a maximum of 15 Days
   b. If the customer is calling within 5 days from NACH hit date: Educate customer that we cannot change upcoming NACH date as the same has already been forwarded to bank for processing from our end
C. To change the NACH date, initiate a ticket in 'NACH Adhoc' bucket.
D. Please Note:
   - NACH deduction date can only be changed after 1st NACH has been cleared
   - Educate the customer that NACH date can only be changed once in 6 months

Q. Want changes in Invoice

A. Change service duration of Invoice- Cannot make changes in the duration
   a. Reason:Since it’s an auto-generation process and gets triggered by the work order, the duration cannot be mentioned/ changed as per system limitations.
   b. The supplier can view his current service duration through Seller panel-Path: Seller Panel >> Dashboard >> My services

B. Change GST number on Invoice- This is not a finance part, as invoices get generated based on details available on STS and floated in Finance Software “Navision”
    a. Please Note: In case there is any change in Invoice it would be re-generated once the changes are done in both WebERP and Navision. Hence, the above changes need to be done first in ERP and then a ticket to 'Customer accounting general queries' needs to be opened to replicate the same on the Invoice
C. Company Name Changes(minor)- This is not a finance part, as invoices get generated based on the details available on STS and floated in Finance Software “Navision”
    a. Please Note: In case there is any change in Invoice it would be re-generated once the changes are done in both WebERP and Navision. Hence, the above changes need to be done first in ERP and then a ticket to 'Customer accounting general queries' needs to be opened to replicate the same on Invoice
D. Address in Invoice- This is not a finance part, as invoices get generated based on the details available on STS and floated in Finance Software “Navision”
E. The address is changed but the state is the same: Change the address in STS only if clients' address is changed. Inform him that there will be no issue in GST claim as the state is the same. If still, the client is adamant that he wants the address to be changed in invoice then need to initiate a ticket to 'Customer accounting general queries'
F. The address and state both changed: First, need to change the GST. Once the GST is verified then need to initiate a ticket in 'Customer accounting general queries'

Q. How to get GST no. changed in invoice

A. Identify the reason why the client wants to get the GST number changed on the invoice.
B. Check whether the GST number updated on the invoice and the one updated in WebERP is the same or different:
C. If same: Inform the client that the invoice is correctly generated.
    a. In case, the client still wants to get the GST details changed on the invoice, ask the client to email the GST certificate for the GST number which he/she wants to get updated on the invoice so that we can update that in our records.
    b. For Servicing Team: Raise an internal ticket for changes in "Customer Accounting General Queries Bucket"
    c. Path: Company >> STS >> Open ticket >> Internal Queries >> Customer Accounting General Queries
D. Prerequisites for opening this ticket :
    a. New GST should be updated in STS and the same needs to be verified
    b. New GST certificate should be attached in the ticket
E. If mismatch:
    a. Ask the client to share the copy of GST certificate via email so that we can update the correct information in our records.
    b. For Servicing Team: Raise an internal ticket for changes in "Customer Accounting General Queries Bucket"
    c. Path: Company >> STS >> Open ticket >> Internal Queries >> Customer Accounting General Queries

F. Prerequisites for opening this ticket :
    a. New GST should be updated in STS and the same needs to be verified
    b. New GST certificate should be attached in the ticket

Q. The client has filed the GST but it is not reflected on GST portal

A. Check whether the GST number updated in our records is correct or not
B. If Incorrect:
    - The client will not be able to claim the GST credit.
    - Ask the client to share the GST registration certificate via email so that the correct GST details can be updated. (Once received raise a ticket to get that updated)
    - Educate the client that GST credit can only be availed post correct GST is updated in IndiaMART records.
C. If Correct:
    - Ask the month for which the client is unable to see the status:
    - Ask the client to share the invoice number and raise a ticket (under customer accounting general queries) educating the client that our team will get in touch within 24-48 working hours.

Q. Scenarios/ Occasions on which Bill Invoice is sent to the client

A. We send the Invoice to the client (Including Credit Note Invoice, & TDS Invoice) on below occasion:
    a. On All Actual receipts and Journal Voucher
    b. On Credit Notes
    c. On TDS Receipts

Q. Want Account ledger

A. There is no provision of sending ledgers. In Seller panel, we show both payments and invoices in separate TABs.
B. But in an exceptional case finance team use to draft the WebERP transactions in excel. CC can draft this through Client Ledger in ERP as well and send it manually.

Q. Want TDS refund

A. Raise an internal ticket in refund initiation bucket
B. Prerequisites before raising the ticket:
    a. TDS certificate is mandatory
    b. The ticket should be raised after clearance of the TDS receipt

Q. What is shop on Im

A. Shopping.indiamart is a platform designed to help B2C e-commerce stores with Shopify websites acquire new buyers by showcasing their products to millions of shoppers who visit IndiaMART to fulfill their purchase needs.
B. Sellers can easily get started by integrating their Shopify store with the IndiaMART Shopping Marketplace App on the Shopify App Store. Once integrated, sellers can:
    - Automatically sync products and relevant details from their Shopify store to IndiaMART with ease.
    - Drive quality traffic to their website by listing products across IndiaMART's properties.
    - Redirect high-intent buyers from IndiaMART directly to their store's checkout page, increasing the chances of conversion.
    - Leverage the IndiaMART brand to build credibility and trust with new customers.
    - This platform is ideal for online sellers looking to boost visibility, drive more traffic, and grow orders on their store.

Q. Misbehaviour by buyer

A. IndiaMART will not intervene as the nature of the complaint is of a Personal Nature so such tickets to be closed post explaining this to the customer (Note- it is not a BS conflict)

Q. How to change catalog template

A. Check the services which the client has taken from IndiaMART:
    a. MDC:
        i. Inform the client that the layout remains the default for all MDC clients. A catalog template change option only exists for suppliers availing Maximizer or above services.
        ii. Check if the client is interested in availing higher package (Inform FABs i.e. Higher Listing, More Enquiries, Own Domain, Corporate Emails etc.)
    b. Maximizer and above:
        i. Ask the client to check available templates on "showroom.indiamart.com" and share the template ID.
        ii. Change the template from WebERP: (Search Company >> STS Tab >> CS tab)

Q. CRM required

A. CRM Integration Services:
   a. Available for Leader/Star Sellers as a built-in feature.
   b. For other sellers, available via subscription to 'IndiaMART Leads API'. Upon subscription, clients will receive a welcome email within 48 hours with relevant information about Pull API and Push API.
B. We have two API services for CRM integration through which clients will be receiving the IndiaMART leads to their CRM platforms - Pull API and Push API.
   a. Pull API: Clients receive leads at regular intervals through their CRM platform's scheduler.
   b. Push API: Clients receive IndiaMART's leads in real time with no delay.

Q. How to do CRM integration

A. Accessing CRM Integration
B. **Log In:**
   a. Visit seller.indiamart.com and log in.
   b. Navigate to the Lead Manager and click the three dots menu (⋮)
   c. Under the category 'Import/Export Leads', we have both 'Pull API' and 'Push API'.
   d. Or directly visit: Pull API Key Generation Page- https://seller.indiamart.com/leadmanager/crmapi / Push API Activation Page- https://seller.indiamart.com/leadmanager/crmpushapi?
2. Help documentation:
   - Pull API Help Document- https://help.indiamart.com/knowledge-base/lms-crm-integration-v2/
   - Push API Help Document- https://help.indiamart.com/knowledge-base/integration-of-indiamarts-lead-manager-crm-push-api-with-third-party-crms-real-time-push-of-leads/

Q. How to troubleshoot API Issues:

A. Troubleshooting Pull API Issues
B. **Key Mistakes:**
   a. **Incorrect Characters:** Compare the key generated (received on email and visible here) and the integrated key (on their CRM Platform) for any incorrect characters.
   b. **Old Key:** Ensure the client is not using an old Pull API key after generating a new one. Update the new key on the CRM platform and restart the integration.
   c. **Expired Key:** Verify the Pull API key is not expired. Generate a new key if necessary and restart the integration.

    d. **Key Type:** Ensure the client is using the Pull API key only (using the Push API key for Pull API will result in errors).

C. **Missing Leads:**
    a. **Logs Review:** Check client's logs for any error hits: Pull API Logs. The 'Response' column shows the error reason.
    b. **Scheduling Strategy:** Verify start and end times in the logs.
    (Ensure the difference between start and end time is not more than 7 days).
    c. **API Hit Gap:** Ensure API hits have at least a 5-minute gap ('API hit time' in the logs displays this time).
    d. **Data Limit:** Clients cannot receive data beyond the past 365 days from the 'API hit time'.
    e. **Scheduler Collisions:** Check for any previous scheduler still running and causing collisions.
    f. **Data Included:** Only leads received are Enquiries, Buy-Leads, PNS Calls, Consumed catalog view leads, and WhatsApp enquiries.
    g. Excluded data includes call attempts, catalog/page views, replies (text messages), and callbacks.

D. Troubleshooting Push API Issues

E. For users of CRM Platforms listed in the drop-down menu:
    a. Activate Push API here: Push API Activation Page
    b. Provide the Webhook Listener URL displayed after this activation, to your CRM Vendor for integration'.

F. For other CRM platform users:
    a. Forward the guidelines document to your CRM vendor.
    b. Obtain a webhook URL as described in the document.
    c. Submit this URL here: Push API screen

G. In case of any Lead Errors:
    a. Review failure logs: Push API Logs.
    b. The 'Retry_count' column shows the number of retry attempts by IndiaMART.
    c. Client needs to check this and resolve errors from their CRM platform.

H. If the client is still unable to access data after following the above steps:
    a. Collect the following information:
    b. Specify which API integration is being used (Pull API or Push API).
    c. Related screenshot of the issue faced.
    d. Client's GLID.
    e. Email these details to lmshelp@indiamart.com for further assistance.

Q. Customer wants to update GST

A. If GST is not verified:
    a. Follow the below path for adding the GST number for the first time:
    b. Seller panel >> Company Profile >> Business Profile >> Statutory Details
B. If GST is verified:
    a. Cases wherein GST is verified then the GST change Field gets blocked hence clients can not change it on their own The servicing team needs to initiate an internal ticket in "GST Change Request (GST Verified)" bucket along with Required Docs mentioned for change
    b. The change request shall be entertained in the below cases:
    c. If Existing GST is cancelled/Active (Only when PAN remain the same in both old and new GST)
        i. Death of Existing Owner
        ii. If old GST wrongly verified
    d. Document required before raising a ticket:
        i. If existing GST is cancelled GST will change only when PAN remains the same in both old and new GST number >> New GST Certificate Required
        ii. GST is Active GST will change only when PAN remains the same in both old and new GST numbers >> New / Old GST Certificate Required
        iii. Death of Existing Owner Death Certificate and New GST Certificate Required if a family member is taking over the business
    e. If existing GST Wrongly verified
        i. Scenario 1- Client wants Removal of Wrong GST If existing GST does not belong to user & updated from inorganic source or by any IM employee >>GST Should be removed without any docs
        ii. Scenario 2- Client wants to update Correct GST in place of Wrong GST If the client wants to update the correct GST where company details is entirely different from STS >> Required New GST certificate of 3 pages where Partner/owner details are mentioned
        iii. Note: If there is any other scenario other than the above cases then need to create another STS.
    f. Please Note:
        i. If PAN is not matching with the existing GST then-new STS will be required - Owner: Jakir / Kartheek
        ii. If the user wants to use the same mobile then an internal ticket should be open to free the mobile number - bucket- email/mobile change
        iii. If any service transfer from old to new STS will be required - Owner - Respective Servicing Team
        iv. GST, IEC, and CIN are auto verification processes and profile details can be changed from the seller's end. Need not to open a ticket for the same.
    g. Do’s & Don’t:
        i. Don’t raise any ticket without a document
        ii. Don’t open any ticket for updating GST Number (if GST is not verified)
